PROFESSIONAL SUMMARY

I am a highly motivated Bachelor of Information Technology student with a strong focus on **Full-Stack Web Development** and **UI/UX Design**. Proficient in building scalable applications using **React.js (Vite)**, **Spring Boot**, and **Python**, with hands-on experience in **RESTful API integration** and **State Management**. Dedicated to applying clean architecture principles and modern styling like **Tailwind CSS** to create user-centric digital solutions. Leveraging strong communication skills from a **Junior Lecturer** role to bridge the gap between complex technical logic and intuitive user experiences. Seeking a **Software Engineer Internship** to contribute technical expertise in Web Development or AI/ML while delivering high-quality, results-driven code.

EDUCATION & CERTIFICATIONS

University of Colombo School of Computing (UCSC)

- Bachelor of Information Technology (BIT) (Reading) – *Expected Graduation: 2026*
- Diploma in Information Technology – *Completed: 2024*

Institute Of Computer Engineering Technology (ICET)

- Diploma in Software Engineering (Reading) – *Expected Completion: 2026*

KEY CERTIFICATIONS

- **Learning Next.js** – LinkedIn Learning (By Sandy Ludosky)
- **Certificate of Python for Beginners** – University of Moratuwa
- **Certificate of C Programming Language** – e-Ketha (2022)
- **Project Leadership** – LinkedIn Learning (By Cyndi Snyder Dionisio)
- **Project Management Foundations: Communication** – LinkedIn Learning
- **Certificate in Graphic Designing** – University of Kelaniya (Achieved A+ Grade, 2024)

TECHNICAL SKILLS

Programming Languages

Java | JavaScript (ES6+) | TypeScript
Python

Frameworks & Libraries

Spring Boot | React.js | Next.js | Angular | Tailwind
CSS | Bootstrap

Web Technologies

HTML5 | CSS3 | REST APIs | JSON Web Token(JWT)

Databases & Backend Services

MySQL | MongoDB | Firebase | Supabase

Tools/Other Platform

Git | GitHub | Jira Software - Atlassian
Postman | Figma | Clickup

Methodologies & Soft Skills :

Agile/Scrum | Project Management Requirement
Gathering

PROJECTS (Portfolio Highlights)

1. Restaurant E-Menu Application [GitHub](#)

- **Technologies:** React.js (Vite), Tailwind CSS, Axios, REST API
Developed a responsive digital restaurant menu application that allows users to browse menu items easily with live search and category-based filtering. Integrated REST APIs for real-time data fetching and dynamic menu rendering, while ensuring a smooth and user-friendly experience across mobile, tablet, and desktop devices.

2. MediCare Sync (Clinical Management System) – Ongoing [Backend](#) | [Frontend](#)

- **Technologies:** React.js, Spring Boot, MySQL
Collaborating in a 3-member team to develop a clinical management system that helps digitize and streamline healthcare workflows. The system includes digital patient profile management, centralized medical records, and pharmacy coordination features to support efficient patient care and medication tracking.

3. Construction Management System (SaaS) – Ongoing [Frontend](#) | [Backend](#)

- **Technologies:** Spring Boot, Angular, MySQL, Jira
Working as a Business Analyst in a 10-member development team to support the development of a SaaS-based construction management platform. Responsible for gathering and analyzing business requirements, preparing user stories and acceptance criteria, and coordinating with developers and designers to align business needs with system workflows and technical implementation.

4. Disaster Management System [GitHub](#)

- **Technologies:** React.js, Firebase, GPS Integration, GitHub
Led a 3-member team to develop a real-time disaster management web application designed to support emergency response and incident reporting. The system includes GPS-based location reporting, offline data synchronization, and an admin dashboard for monitoring incidents and managing resources effectively.

5. Gym Management System (PowerFit Website) [GitHub](#) [Demo-Link](#)

- **Technologies:** HTML, CSS, JavaScript, Google Fonts, Font Awesome
Designed and developed a responsive website for a fitness center to promote services, trainers, and membership plans in a professional and engaging way. Focused on creating an attractive user interface, improving responsiveness across devices, and enhancing the overall branding and user experience.

PROFESSIONAL EXPERIENCE

Junior Lecturer - Earth University College | 2022 – 2023

- Conducted lectures and training sessions in the pre-semester program, demonstrating strong command of subject matter.
- Responsible for simplifying and delivering foundational technical concepts to new students, enhancing **communication and presentation skills**.
